

AUTOMATE

REMOTES

- Rollease Acmeda offers a variety of stylish single and 15 channel controllers
- The Paradigm remote is the latest release to the Automate range and is compatible with the new ARC (Automate Radio Communication) protocol. Paradigm 15 channel remotes also feature levelling control along with the ability to hide unused channels for easier scrolling and selection
- Both Paradigm and RF500s series of hand-held remotes feature touch-sensitive functionality
- The single channel remote from the RF400s wall-switch series features a timer function for daily scheduled operation of single or grouped shades
