

BÜSCHE

The BÜSCHE Rod is a decorative, elegant motorised glide rod system.

It comes in a 28mm diameter and is custom manufactured to size. Available in black and nickel. Bracket options are - Single face fix, Double face Fix, Top Fix & Side fix. Standard glide for pleated heading drapes or wave heading.

There are two motor manufacturer options available to drive and control the drapery, Forest or Somfy. Motors can be located left hand or right hand, drapes can be configured as one way draw or centre closing. Motor options are electric 240V or re-chargable 24V DC battery powered. Control options are home automation, remote control/wall switch or voice control.

BÜSCHE was established in 1872 and now develops, manufactures and sells curtain rod and rail sets, worldwide. BÜSCHE products stand out through their durability, functionality, first-class designs and quality.

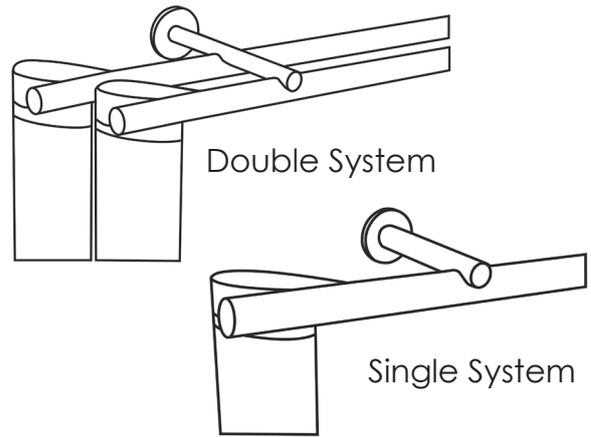

BÜSCHE manufactures its products exclusively in its Neuenrade location, with the quality assurance that comes with MADE IN GERMANY.

All products are subject to constant quality control in-house at BÜSCHE.
