

Comfort & Convenience

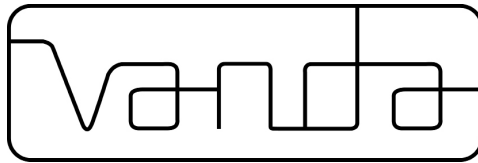

- Smooth Belt driven motorised curtain track system
- Touch Impluse Technology, gently pulling the curtain by hand will activate the motor
- Integrated Emergency Control - In case of a power failure, the drapes can be moved manually
- Can be operated by Wall Switch, Remote Control or Time Switch
- Easy to connect to Building Automation System
- Clickable off-set carrier for a straight heading of the curtain (allowing track to be covered when curtains are closed)
- Top Fix or Face Fix application available
- Vanda Wave Heading available
- Ultra Silent Motor
- 10 Year Warranty

Bending/curving

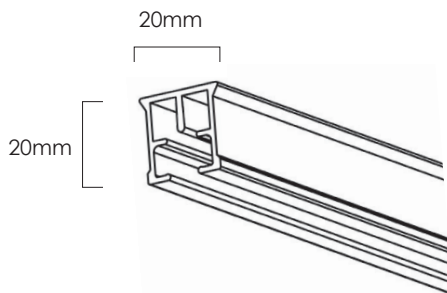

- The motor can drive a curtain with one or two bends of 90 degrees in the track
- The track can be bent and reversed bent with a radius of 20cm (200mm). Curved / Rolled
- Tracks can be joined to extend a maximum of 10 L/M

- Forest Diamond remote Control
- 6 channel remote control, possibility to control up to 6 systems individually and in group Radio control, range up to 30 meters

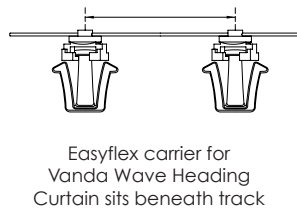

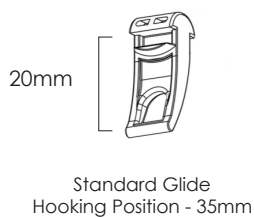

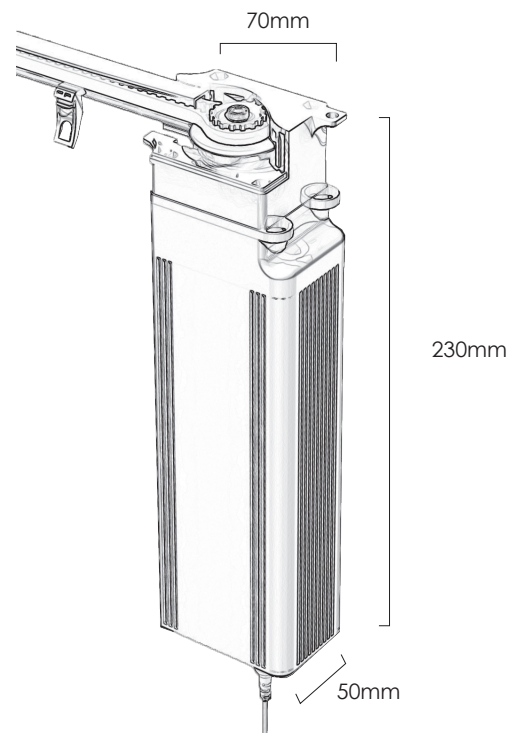

FOREST FMS TRACK PROFILE

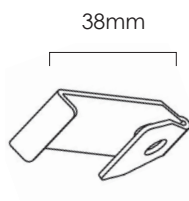

FMS TRACK - GLIDE/CARRIER

FOREST SHUTTLE MOTOR DIMENSIONS

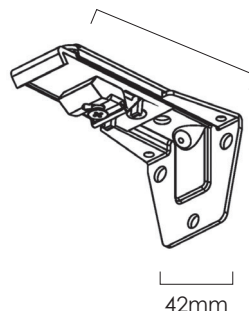

FOREST TOP FIX BRACKET

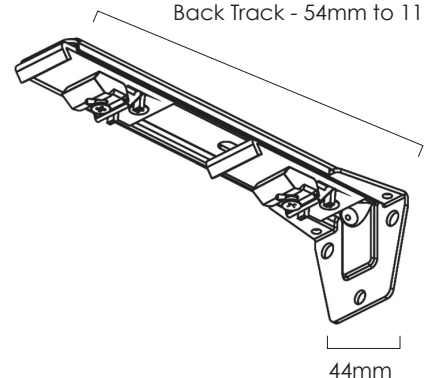

FOREST FACE FIX BRACKET

Single Adjustable Bracket
Adjustable from
75mm to 115mm

Double Adjustable Bracket
Adjustable from
Front Track - 65mm to 100mm
Back Track - 54mm to 110mm

CURTAIN WORKROOM TIPS

Allow an additional 200-250mm of curtaining on the motor side. This will allow the curtain to wrap around the motor for concealment.

The standard glides are offset so the curtain can conceal the track. The hooking position to cover the track is 35mm.
