

PRODUCT INFORMATION

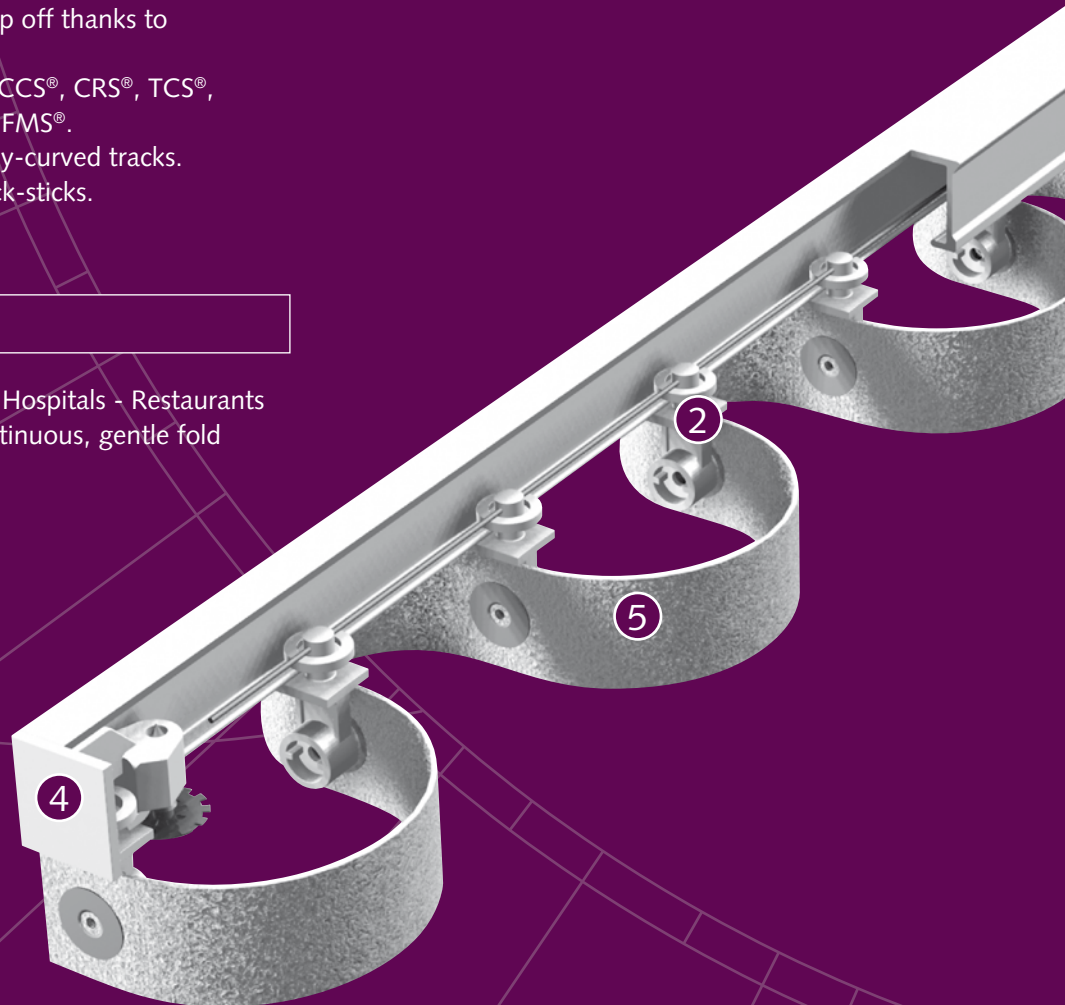

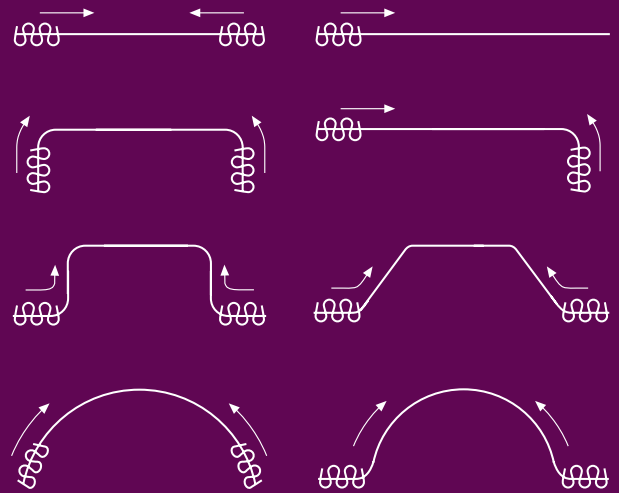

The Forest Easyfold System is an additional feature for the existing drapery hardware of Forest Group Companies. It can be installed onto curtain tracks and gives a special design on a curtain.

- Gentle, continuous flowing drapery from the beginning to the end of the track.
- Hand drawn, cord drawn or motorized operated possibility.
- Easy to take down and re-hang.
- When ironed, the curtains will easily fall into folds again.
- Nylon snaptape fixed onto fabric enables a continuous fold.
- Stack-back takes less width than conventionally pleated drapes.
- Quick curtain snap on and snap off thanks to detachable Easysnap carriers
- System: KS[®], CKS[®], DS[®], CS[®], CCS[®], CRS[®], TCS[®], Forest Shuttle[®], CRS Corded[®], FMS[®].
- Can also be used in horizontally-curved tracks.
- Master Carriers can handle Flick-sticks.

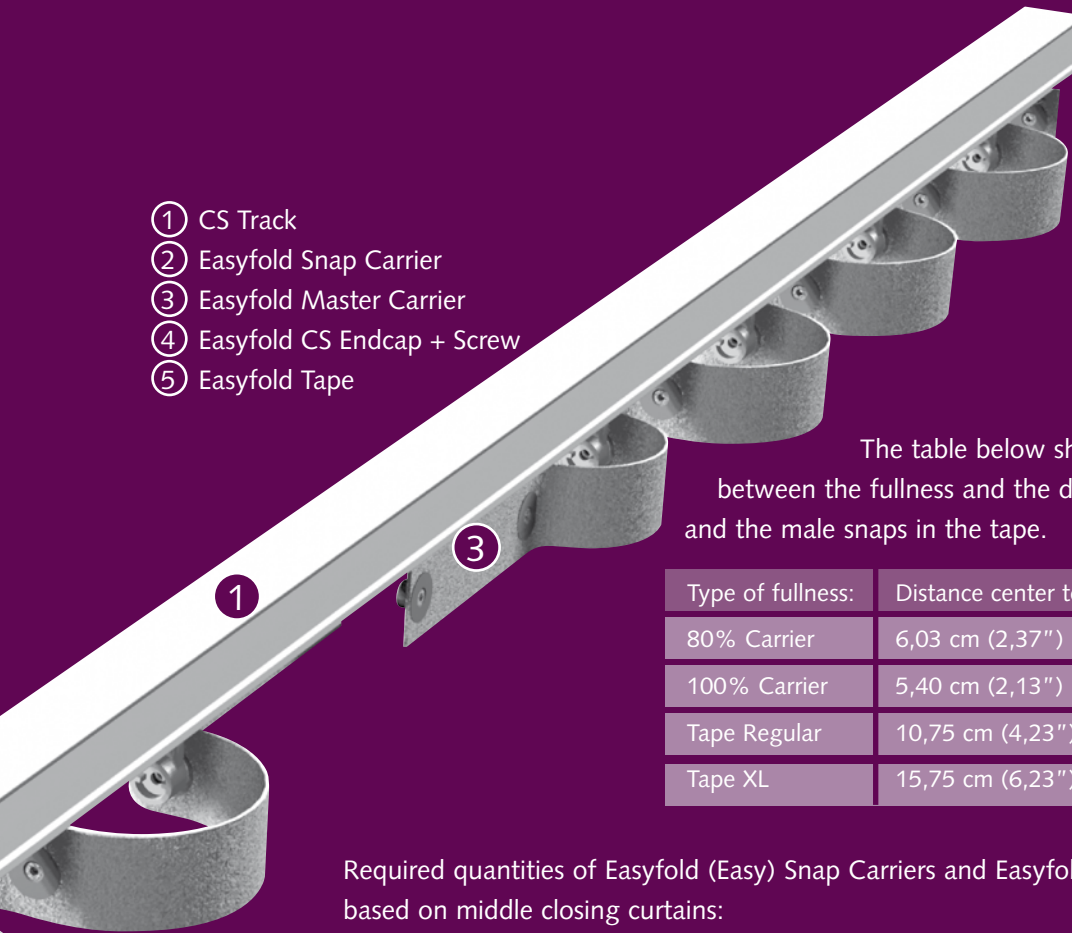

For use in

- Hotels - Motels - Residences - Hospitals - Restaurants or at any location where a continuous, gentle fold drapery is requested.
