

FLUSH FIT TRACK PROFILE

FLUSH FIT TRACK SINGLE SYSTEM

Wall to centre of Flush Fit Track
 Spacing allowance should be up to 90mm
 (this does depend on the curtain heading being specified)

FLUSH FIT TRACK DOUBLE SYSTEM

Wall to centre of Flush Fit Track (Back Track)
 Spacing allowance should be up to 90mm
 Centre of Flush Fit Track (Back Track) to centre of Flush Fit Track (Front Track)
 Spacing allowance should be up to 100mm for straight tracks
 For Bent double tracks, spacing between the tracks must be at 95mm (no adjustment)

**Vanda suggests the distances vary between 50-90mm
 However the above measurements depend on the curtain heading being specified**
